

## LARGE CAP CORE

Suffolk Capital Management performs fundamental bottom-up company analysis, in depth review of earnings revisions, earnings models and balance sheet analysis. Our goal is to outperform the index- Russell 1000 over both the short and long-term. We screen the Russell 1000 universe for stocks that are attractive on valuation and exhibit improving fundamentals and/or negative investor sentiment.

## COMPANY OVERVIEW

Suffolk Capital Management was established in 1991 and is a registered investment advisor with the SEC under the Investment Advisers Act of 1940. SCM is MWBE certified, and 100% employee owned. As of September 30<sup>th</sup> 2018, SCM manages approximately \$2.1 billion in assets. SCM offers the following products: Large Cap Core, Large Cap Growth, Large Cap Value, Large Cap Dynamic, and Small Cap Growth.

## INVESTMENT PHILOSOPHY

We believe that the revaluation of a company's stock price can be anticipated by analyzing minor changes in short term fundamentals; these will have the potential for earnings revisions and earnings surprises that will lead to multiple expansions as growth expectations are higher. We look for stocks that are mispriced, utilizing our proprietary Q<sup>2</sup> model.

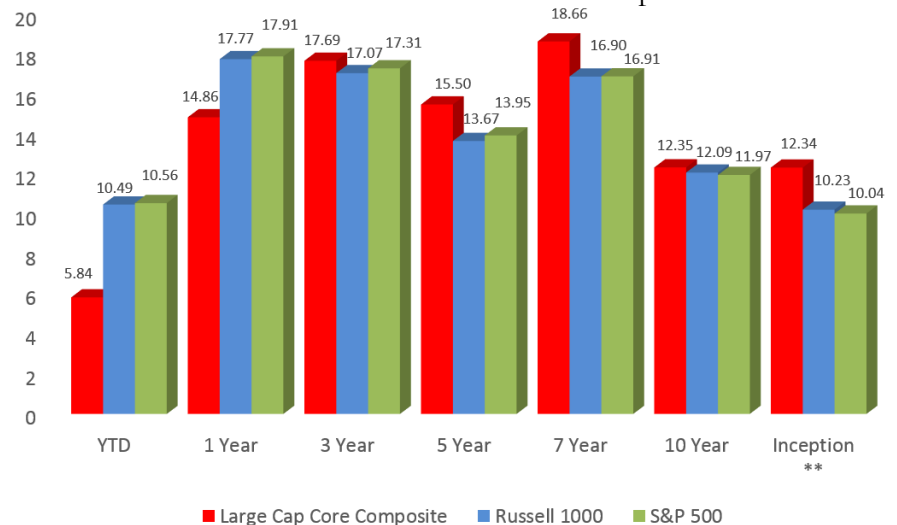

## INVESTMENT TEAM

The Investment team is led by Mr. Donald Gilbert, President / CIO. Collectively, the portfolio managers have an average of 21 years of investment experience. Mr. Christopher Liong, Portfolio Manager – Large Cap Growth & Small Cap Growth, Mr. Andy Wong, Portfolio Manager – Large Cap Dynamic, along with eleven investment analysts.

The graph above represents the performance gross of fees in this product versus the Russell 1000 and the S&P 500 Indices from inception of the product to 09/30/18. \*\* Inception is March 1, 1991. Suffolk results are based on fully discretionary accounts under management, including those accounts no longer with the firm. The Russell 1000 and S&P 500 Indices measures the performance of the large cap segment of the U.S. equity universe. This unmanaged market index is provided to represent the investment environment existing during the time periods shown as an unbiased barometer for the large cap segment of the U.S. market. For comparison purposes, the index is a fully invested index, which includes reinvestment of income. The returns for this unmanaged index do not include any transaction costs, management fees or other costs. SCM's Core Equity Strategy may include ADR's and certain foreign securities not included within the comparison index. Sector weights (represents overweight/underweight versus the benchmark), top ten holdings and characteristics are from Thomson Eikon using a representative portfolio as of 09/30/18 versus the Russell 1000. Please refer to the attached GIPS compliant marketing presentation for additional statistics and information. The data on this page is considered Supplemental Information to the attached GIPS compliant presentation.

### Disclosures

Suffolk Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Suffolk Capital Management has been independently verified for the periods January 1, 2000 – March 31, 2018. This verification report is available upon request. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. Verification does not ensure the accuracy of any specific composite presentation.

Firm Information: Suffolk Capital Management, LLC (SCM) is an investment adviser established in 1991 and registered with the Securities and Exchange Commission under the Investment Advisers Act of 1940. SCM is 100% employee owned. SCM manages equity assets for primarily institutional clients.

Fees: The fee schedule for SCM's Core Equity product is as follows: 0.60% on the first \$50 million, 0.40% on the next \$50 million, and 0.30% on the remainder. Net of fees returns above are calculated by applying the aforementioned fee schedule to end of period composite assets, and deducting fees quarterly. Actual investment advisory fees incurred by clients may vary.

Composite Characteristics: SCM's Core Equity composite represents an equity strategy that primarily invests in mid and large capitalization US companies. The strategy is benchmarked to the Russell 1000 and S&P 500 Indexes. Mid and large capitalization companies are those with a market capitalization within the same general range as the issuers included in the benchmark indexes. The objective of this strategy is to outperform the benchmark indexes over the long-term. New accounts that fit the composite definition are added at the beginning of the first full calendar month for which the accounts are under management. Closed account data is included in the composite as mandated by the standards in order to eliminate a survivorship bias. The Core Equity composite was created in March 1991. A complete list and description of all firm composites is available upon request.

Calculation Methodology: Valuations and returns are computed and stated in U.S. dollars, and individual portfolios are revalued monthly. Gross of fees returns are calculated gross of management and custodial fees and net of transaction costs. Net of fees returns are calculated net of model management fees and transaction costs and gross of custodial fees. The composite results portrayed reflect the reinvestment of dividends, capital gains, and other earnings when appropriate. The number of accounts and dispersion measure are not shown on the table above due to the existence of two or fewer accounts during the period, in accordance with the standards. The dispersion measure is the asset-weighted standard deviation of accounts in the composite for the entire year.

Other Disclosures: Past performance is not indicative of future results. This performance report should not be construed as a recommendation to purchase or sell any particular securities held in composite accounts. Market conditions can vary widely over time and can result in a loss of portfolio value. Policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

### DONALD M. GILBERT

#### President, Chief Investment Officer

Education: B.S., University of Pennsylvania/M.B.A., Wharton School of Finance & Commerce

Experience: Mr. Gilbert founded Suffolk Capital Management in March 1991 and has served as the firm's CIO since. Prior to Suffolk Capital Management, he served as Director of Equity Investments at Home Insurance Company, where he managed all equity client accounts. Previously, he was Managing Director and Director of Investment Research of Marininvest, a subsidiary of Marine Midland Bank. Before joining Marininvest, he was a consultant in the financial service industry at Booz Allen Hamilton.
